Start-Up AEL - Technical Evaluation

Name:	
E-mail:	Date:
Instructions: • Provide short and direct answers to the questions. • Answer the questions using your knowledge and creativity. Do not use your mobile phone and do not chat with other participants while answering the test. • We really want to get to know you and to understand how you think, so always explain the reasoning behind your answers. • Answer the questions in Portuguese or in English, you can choose the best language to express your thoughts. • If you need more space for the answers please ask for additional answer sheets.	
Test Selection: • This test has 22 questions, which are grouped into three areas of knowledge: Software, Hardware and Systems. • You can answer questions from one or more areas of knowledge but prioritize your internship interests and expertise. Just a reminder: we don't expect you to answer the entire test, but feel free to do so! • Please select below one or more tests you are answering: ☐ Software Test – questions 1 to 10 ☐ Hardware Test – questions 11 to 13 ☐ Systems Test – questions 14 to 22
